Subject Index

Volume 79, January–June 1989

[1-^{11}C]Acetate
Noninvasive Quantitation of Regional Myocardial Oxygen Consumption In Vivo With [1-^{11}C]Acetate and Dynamic Positron Emission Tomography, 134

Abnormal neurohumoral tone
Abnormal Coronary Vasomotion During Exercise in Patients With Normal Coronary Arteries and Reduced Coronary Flow Reserve, 516

Acetylcholine
Evidence of Endothelial Dysfunction in Angiographically Normal Coronary Arteries of Patients With Coronary Artery Disease, 287

Action potential propagation
Modulation of the Purkinje-Ventricular Muscle Junctional Conduction by Elevated Potassium and Hypoxia, 1100

Actuarial survival
Surgical Therapy for Left Ventricular Aneurysms: A Ten-Year Experience, I-102
The Risk of Coronary Bypass Surgery for Patients With Postinfarction Angina, I-79

Acute closure
Tear or Dissection After Coronary Angioplasty: Morphologic Correlates of an Ischemic Complication, 1035

Acute myocardial infarction
Coronary Artery Bypass Grafting for Postinfarction Angina Pectoris, I-68
Coronary Heart Disease and Related Procedures: National Hospital Discharge Survey Data, I-13
Emergency Management of Cardiogenic Shock, I-149

Acute myocardial necrosis
A Critique of Emergency and Urgent Operations for Complications of Coronary Artery Disease, I-160

Acute revascularization surgery
Coronary Artery Bypass Graft Surgery Early After Acute Myocardial Infarction, I-73

Adenylate cyclase
β-Adrenergic Receptor Number and Adenylate Cyclase Function in Denervated Transplanted and Cardiomyopathic Human Hearts, 1028

Adrenergic nervous system
Effects of Regional α- and β-Blockade on Resting and Hyperemic Coronary Blood Flow in Conscious, Unstressed Humans, 797

Adrenergic supersensitivity
β-Adrenergic Supersensitivity of the Transplanted Human Heart Is Presynaptic in Origin, 344

Adult
Sudden Coronary Death in the United States: 1980–1985, 756

Afterload mismatch
Assessment of Ventricular Contractile State and Function in Patients With Univentricular Heart, 1247

Allograft rejection
Power Spectrum Analysis of Heart Rate Variability in Human Cardiac Transplant Recipients, 76

Amiloride
Amiloride: Antiarrhythmic and Electrophysiologic Actions in Patients With Inducible Sustained Ventricular Tachycardia, 1257

Amiodarone
Patient Selection Criteria and Results of Surgery for Refractory Ischemic Ventricular Tachycardia, I-163

Amplitude-weighted mean velocity
Quantification of Mitral Regurgitation With Amplitude-Weighted Mean Velocity From Continuous Wave Doppler Spectra, 1294

Angina
Coronary Heart Disease and Related Procedures: National Hospital Discharge Survey Data, I-13
Exercise-Induced Myocardial Ischemia in a Cold Environment: Effect of Antianginal Medications, 1015
Heart Rate Adjustment of ST Segment Depression for Improved Detection of Coronary Artery Disease, 245

Angioplasty
Coronary Heart Disease and Related Procedures: National Hospital Discharge Survey Data, I-13
Effects of Thrombin Inhibition on the Development of Acute Platelet-Thrombus Deposition During Angioplasty in Pigs: Heparin Versus Recombinant Hirudin, a Specific Thrombin Inhibitor, 657
Emergency Cardiac Procedures in Patients in Cardiogenic Shock due to Complications of Coronary Artery Disease, I-137

Angiotensin converting enzyme inhibition
Contrasting Peripheral Short-term and Long-term Effects of Converting Enzyme Inhibition in Patients With Congestive Heart Failure: A Double-Blind, Placebo-Controlled Trial, 491

Antianginal action
Nitrate Tolerance in Epicardial Arteries or in the Venous System Is Not Reversed by *N*-Acetylcysteine In Vivo, but Tolerance-Independent Interactions Exist, 188

Antiarrhythmic activity
Amiloride: Antiarrhythmic and Electrophysiologic Actions in Patients With Inducible Sustained Ventricular Tachycardia, 1257

Antiarrhythmic drugs
Amplification of Flecainide-Induced Ventricular Conduction Slowing by Exercise: A Potentially Significant Clinical Consequence of Use-Dependent Sodium Channel Blockade, 1000
Evaluation of Antiarrhythmic Drugs on Defibrillation Energy Requirements in Dogs: Sodium Channel Block and Action Potential Prolongation, 1106

Antiarrhythmic therapy
Relation of Baseline Characteristics to Suppression of Ventricular Arrhythmias During Placebo and Active Antiarrhythmic Therapy in Patients After Myocardial Infarction, 610

Antiarrhythmic treatment
Nonischemic Ventricular Tachycardia: Clinical Course and Long-term Follow-up in Patients Without Clinically Overt Heart Disease, 990

Anticoagulation
A Randomized Controlled Trial of Intravenous Tissue Plasminogen Activator and Early Intravenous Heparin in Acute Myocardial Infarction, 281
Effects of Thrombin Inhibition on the Development of Acute Platelet-Thrombus Deposition During Angioplasty in Pigs: Heparin Versus Recombinant Hirudin, a Specific Thrombin Inhibitor, 657

Aortic regurgitation
Left Ventricular Structure and Function in Aortic Valve Disease, 966

Aortic stenosis
Cardiac Conduction Abnormalities During Percutaneous Balloon Mitral or Aortic Valvotomy, 1197

Influence of Alteration in Preload on the Pattern of Left Ventricular Diastolic Filling as Assessed by Doppler Echocardiography in Humans, 1226
Left Ventricular Structure and Function in Aortic Valve Disease, 966
Percutaneous Balloon Valvuloplasty in Patients With Severe Aortic Stenosis and Low Ejection Fraction: Immediate Results and 1-Year Follow-up, 1189

Aortic valve replacement
Treatment of Recurrent Ventricular Tachycardia and Operation for Combined Ischemia and Valvular Disease, I-191
Coronary Artery Bypass Grafting in the Presence of Valvular Disease, I-182

Aortocoronary bypass
Alternative Conduits for Aortocoronary Bypass Grafting, I-34
Coronary Artery Bypass Grafting With Saphenous Vein, I-24
Coronary Heart Disease and Related Procedures: National Hospital Discharge Survey Data, I-13
New Arteries for Old, I-40
Use of Internal Thoracic Artery for Coronary Artery Grafting, I-30

Arrhythmia
Effect of Acute Volume Load on Refractoriness and Arrhythmia Development in Isolated, Chronically Infarcted Canine Hearts, 687
Nonischemic Ventricular Tachycardia: Clinical Course and Long-term Follow-up in Patients Without Clinically Overt Heart Disease, 990
Relation of Baseline Characteristics to Suppression of Ventricular Arrhythmias During Placebo and Active Antiarrhythmic Therapy in Patients After Myocardial Infarction, 610

Arterial baroreceptors
Arterial Baroreflex Abnormalities in Heart Failure: Reversal After Orthotopic Cardiac Transplantation, 51

Arterial compliance
Reversal of Atherosis and Sclerosis: The Two Components of Atherosclerosis, 1

Arterial injury
Effects of Thrombin Inhibition on the Development of Acute Platelet-Thrombus Deposition During Angioplasty in Pigs: Heparin Versus Recombinant Hirudin, a Specific Thrombin Inhibitor, 657

Arterial thrombosis
Differential Sensitivity of Erythrocyte-Rich and Platelet-Rich Arterial Thrombi to Lysis With Recombinant Tissue-Type Plasminogen Activator: A Possible Explanation for Resistance to Coronary Thrombolysis, 920

Arterial vasodilation
Cardiac and Vascular Effects of Atrial Natriuretic Factor and Sodium Nitroprusside in Healthy Men, 383

Artery
Flow-Mediated and Reflex Changes in Large Peripheral Artery Tone in Humans, 93

Aspirin
Effects of Aspirin and Prostaglandin E_1 on In Vitro Thrombolysis With Urokinase: Evidence for a Possible Role of Inhibiting Platelet Activity in Thrombolysis, 1309
In Vivo Measurement of Thromboxane B_2 and 6-Keto-Prostaglandin $F_{1\alpha}$ in Humans in Response to a Standardized Vascular Injury and the Influence of Aspirin, 29

Atherosclerosis
Prevalence of Hyperhomocyst(e)inemia in Patients With Peripheral Arterial Occlusive Disease, 1180
Reversal of Atherosis and Sclerosis: The Two Components of Atherosclerosis, 1

Atrial cycle length
The Human Atrial Strength-Interval Relation: Influence of Cycle Length and Procainamide, 271

Atrial flutter
Activation Mapping of Reentry Around an Anatomic Barrier in the Canine Atrium: Observations During Entrainment and Termination, 406

Atrial natriuretic factor
Cardiac and Vascular Effects of Atrial Natriuretic Factor and Sodium Nitroprusside in Healthy Men, 383

Atrial natriuretic peptide
Atrial Natriuretic Peptide in a Rat Model of Cardiac Failure: Atrial and Ventricular mRNA, Atrial Content, Plasma Levels, and Effect of Volume Loading, 620

Atrial septal defect
Transcatheter Closure of Atrial Septal Defects: Experimental Studies, 1091

Atrioventricular conduction
Cardiac Conduction Abnormalities During Percutaneous Balloon Mitral or Aortic Valvotomy, 1197

Atrioventricular node
A New Mechanism for Atrioventricular Nodal Gap–Vagal Modulation of Conduction, 417

Atropine
Evidence for Cholinergically Mediated Vasodilation at the Beginning of Isometric Exercise in Humans, 815

Automatic internal cardiac defibrillator
Treatment of Recurrent Ventricular Tachycardia and Operation for Combined Ischemia and Valvular Disease, I-191

Automatic internal cardioverter-defibrillator
Patient Selection Criteria and Results of Surgery for Refractory Ischemic Ventricular Tachycardia, I-163
Risk Stratification and Management of Patients With Recurrent Ventricular Tachycardia and Other Malignant Ventricular Arrhythmias, I-178

Automaticity
Rate-Related Electrophysiologic Effects of Long-term Administration of Amiodarone on Canine Ventricular Myocardium In Vivo, 948

Autonomic blockade
Nitrate Tolerance in Epicardial Arteries or in the Venous System Is Not Reversed by *N*-Acetylcysteine In Vivo, but Tolerance-Independent Interactions Exist, 188

Autonomic nervous system
Evidence for Cholinergically Mediated Vasodilation at the Beginning of Isometric Exercise in Humans, 815
Importance of Aortic Baroreflex in Regulation of Sympathetic Responses During Hypotension: Evidence From Direct Sympathetic Nerve Recordings in Humans, 83

Autoradiography
Distribution of β-Adrenergic Receptors in Failing Human Myocardium: Implications for Mechanisms of Down-Regulation, 1214

BALB/c mice
Myocardial Uptake of Antimyosin Monoclonal Antibody in a Murine Model of Viral Myocarditis, 400

Balloon valvuloplasty
Follow-up of Patients Undergoing Percutaneous Mitral Balloon Valvotomy: Analysis of Factors Determining Restenosis, 573

β-Adrenergic receptor agonists
β-Adrenergic Stimulation With Isoproterenol Enhances Left Ventricular Diastolic Performance in Hypertrophic Cardiomyopathy Despite Potentiation of Myocardial Ischemia: Comparison to Rapid Atrial Pacing, 371

β-Adrenergic receptor blockers
Effects of Verapamil and Propranolol on Changes in Extracellular K^+, pH, and Local Activation During Graded Coronary Flow in the Pig, 939
Role of β_1-Receptors and Vagal Tone in Cardiac Inotropic and Chronotropic Responses to a β_2-Agonist in Humans, 107
Stereoselective Disposition and Pharmacologic Activity of Propafenone Enantiomers, 1068

β-Adrenergic receptors
β-Adrenergic Receptor Number and Adenylate Cyclase Function in Denervated Transplanted and Cardiomyopathic Human Hearts, 1028
β-Adrenergic Supersensitivity of the Transplanted Human Heart Is Presynaptic in Origin, 344

Distribution of β-Adrenergic Receptors in Failing Human Myocardium: Implications for Mechanisms of Down-Regulation, 1214
Role of β_1-Receptors and Vagal Tone in Cardiac Inotropic and Chronotropic Responses to a β_2-Agonist in Humans, 107

Blacks
Sudden Coronary Death in the United States: 1980–1985, 756

Bleeding time
In Vivo Measurement of Thromboxane B_2 and 6-Keto-Prostaglandin $F_{1\alpha}$ in Humans in Response to a Standardized Vascular Injury and the Influence of Aspirin, 29

Blood pressure trends
Trends for Coronary Heart Disease and Stroke and Their Risk Factors in Japan, 503

Body geometry–related variability
Sources of Variability in Normal Body Surface Potential Maps, 1077

Body surface ECG mapping
Improved Diagnostic Performance on the Severity of Left Ventricular Hypertrophy With Body Surface Mapping, 312

British Regional Heart Study
High-Density Lipoprotein Cholesterol and Cardiovascular Disease: Four Prospective American Studies, 8

Calcium channel blockers
Effects of Verapamil and Propranolol on Changes in Extracellular K^+, pH, and Local Activation During Graded Coronary Flow in the Pig, 939
Endothelium-Dependent Arterial Vasoconstriction After Balloon Angioplasty, 899

Calcium flux
Enhanced Hypoxic Pulmonary Vasoconstriction in Hypertension, 337

Cardiac
Amplification of Flecainide-Induced Ventricular Conduction Slowing by Exercise: A Potentially Significant Clinical Consequence of Use-Dependent Sodium Channel Blockade, 1000

Cardiac arrhythmia
Quinidine-Induced Action Potential Prolongation, Early Afterdepolarizations, and Triggered Activity in Canine Purkinje Fibers: Effects of Stimulation Rate, Potassium, and Magnesium, 674

Cardiac denervation
Effects of Regional α- and β-Blockade on Resting and Hyperemic Coronary Blood Flow in Conscious, Unstressed Humans, 797

Cardiac muscle
Myocardial Inotropic Responses to Aggregating Platelets and Modulation by the Endocardium, 1315

Cardiac PET
Assessment of Coronary Artery Disease Severity by Positron Emission Tomography: Comparison With Quantitative Arteriography in 193 Patients, 825

Cardiac rupture
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137

Cardiac transplantation
β-Adrenergic Receptor Number and Adenylate Cyclase Function in Denervated Transplanted and Cardiomyopathic Human Hearts, 1028
β-Adrenergic Supersensitivity of the Transplanted Human Heart Is Presynaptic in Origin, 344
A Hemodynamic and Doppler Echocardiographic Study of Ventricular Function in Long-term Cardiac Allograft Recipients: Etiology and Prognosis of Restrictive-Constrictive Physiology, 66
Arterial Baroreflex Abnormalities in Heart Failure: Reversal After Orthotopic Cardiac Transplantation, 51
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137
Emergency Management of Cardiogenic Shock, I-149

Cardiogenic shock
A Critique of Emergency and Urgent Operations for Complications of Coronary Artery Disease, I-160
Acute Ischemic Ventricular Septal Defect, I-112
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137
Surgery for Mitral Regurgitation Associated With Ischemic Heart Disease: Results and Strategies, I-122

Cardiomyopathy
β-Adrenergic Receptor Number and Adenylate Cyclase Function in Denervated Transplanted and Cardiomyopathic Human Hearts, 1028

Cardioplegia
Protective Effects of Retrograde Compared With Antegrade Cardioplegia on Right Ventricular Systolic and Diastolic Function During Coronary Bypass Surgery, 1271

Cardiovascular disease
High-Density Lipoprotein Cholesterol and Cardiovascular Disease: Four Prospective American Studies, 8
Trends for Coronary Heart Disease and Stroke and Their Risk Factors in Japan, 503

Catheter ablation
Long-term Results of Catheter Ablation of a Posteroseptal Accessory Atrioventricular Connection in 48 Patients, 1160

Catheterization, heart
Transcatheter Closure of Atrial Septal Defects: Experimental Studies, 1091

Cephalic vein graft
Alternative Conduits for Aortocoronary Bypass Grafting, I-34

Cerebral blood flow
Organ Blood Flow and Somatosensory-Evoked Potentials During and After Cardiopulmonary Resuscitation With Epinephrine or Phenylephrine, 1332

Cerebral oxygen consumption
Organ Blood Flow and Somatosensory-Evoked Potentials During and After Cardiopulmonary Resuscitation With Epinephrine or Phenylephrine, 1332

Chemotaxis
Neutrophil Function in Ischemic Heart Disease, 549

Cholesterol
Intensive Combination Drug Therapy of Familial Hypercholesterolemia With Lovastatin, Probucol, and Colestipol Hydrochloride, 16

Chronic angina
Coronary Heart Disease and Related Procedures: National Hospital Discharge Survey Data, I-13

Chylomicron remnants
Physical Exercise Conditioning in the Absence of Weight Loss Reduces Fasting and Postprandial Triglyceride-Rich Lipoprotein Levels, 1007

Chylomicrons
Physical Exercise Conditioning in the Absence of Weight Loss Reduces Fasting and Postprandial Triglyceride-Rich Lipoprotein Levels, 1007

Cilazapril
Contrasting Peripheral Short-term and Long-term Effects of Converting Enzyme Inhibition in Patients With Congestive Heart Failure: A Double-Blind, Placebo-Controlled Trial, 491

Cineventriculography
Importance of Collateral Circulation for Prevention of Left Ventricular Aneurysm Formation in Acute Myocardial Infarction, 791

Circadian rhythm
Diurnal Variation of Tissue-Type Plasminogen Activator and its Rapid Inhibitor (PAI-1), 101

Circulatory assist
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137

Clinical trial
Relation of Baseline Characteristics to Suppression of Ventricular Arrhythmias During Placebo and Active Antiarrhythmic Therapy in Patients After Myocardial Infarction, 610
Colestipol hydrochloride
Intensive Combination Drug Therapy of Familial Hypercholesterolemia With Lovastatin, Probucol, and Colestipol Hydrochloride, 16
Collateral vessels
Vasopressin and the Mature Coronary Collateral Circulation, 1324
Compliance
Arterial Hemodynamic Indexes in Marfan's Syndrome, 854
Complications
Use of Internal Thoracic Artery for Coronary Artery Grafting, I-30
Conductance (volume) catheter
Influence of Contractile State on Curvilinearity of In Situ End-Systolic Pressure-Volume Relations, 167
Conduction
Amplification of Flecainide-Induced Ventricular Conduction Slowing by Exercise: A Potentially Significant Clinical Consequence of Use-Dependent Sodium Channel Blockade, 1000
Conduction velocity
Rate-Related Electrophysiologic Effects of Long-term Administration of Amiodarone on Canine Ventricular Myocardium In Vivo, 948
Congestive heart failure
Arterial Baroreflex Abnormalities in Heart Failure: Reversal After Orthotopic Cardiac Transplantation, 51
Contrasting Peripheral Short-term and Long-term Effects of Converting Enzyme Inhibition in Patients With Congestive Heart Failure: A Double-Blind, Placebo-Controlled Trial, 491
Coronary Bypass Grafting in Patients With Chronic Congestive Heart Failure, I-92
Constrictive pericarditis
Differentiation of Constrictive Pericarditis and Restrictive Cardiomyopathy by Doppler Echocardiography, 357
Continuous wave Doppler
Quantification of Mitral Regurgitation With Amplitude-Weighted Mean Velocity From Continuous Wave Doppler Spectra, 1294
Contractility
Influence of Contractile State on Curvilinearity of In Situ End-Systolic Pressure-Volume Relations, 167
Myocardial Inotropic Responses to Aggregating Platelets and Modulation by the Endocardium, 1315
Contraction-excitation feedback
Effect of Acute Volume Load on Refractoriness and Arrhythmia Development in Isolated, Chronically Infarcted Canine Hearts, 687
Contrast
Noninvasive Evaluation of Pulmonary Artery Pressure During Exercise by Saline-Enhanced Doppler Echocardiography in Chronic Pulmonary Disease, 863
Nonuniformity of the Transmural Distribution of Coronary Blood Flow During the Cardiac Cycle: In Vivo Documentation by Contrast Echocardiography, 179
Coronary artery bypass
Alternative Conduits for Aortocoronary Bypass Grafting, I-34
Coronary Arteriography and Percutaneous Transluminal Coronary Angioplasty: Changing Patterns of Use and Results, I-19
Coronary Artery Bypass Grafting for Postinfarction Angina Pectoris, I-68
Coronary Artery Bypass Grafting in the Presence of Valvular Disease, I-182
Coronary Artery Bypass Grafting With Saphenous Vein, I-24
Coronary Artery Bypass Surgery After Failed Elective Percutaneous Transluminal Coronary Angioplasty: A Status Report, I-126
Coronary Bypass Surgery in Chronic Stable Angina, I-46
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137
In Search of the Optimal Surgical Mortality, I-132
Protective Effects of Retrograde Compared With Antegrade Cardioplegia on Right Ventricular Systolic and Diastolic Function During Coronary Bypass Surgery, 1271
Risk Factors for Mortality After Primary Combined Valvular and Coronary Artery Surgery, I-185
Summary of a Consensus Concerning Death and Ischemic Events After Coronary Artery Bypass Grafting, I-81
Treatment of Recurrent Ventricular Tachycardia and Operation for Combined Ischemia and Valvular Disease, I-191
Use of Internal Thoracic Artery for Coronary Artery Grafting, I-30
Coronary artery disease
Coronary Bypass Grafting in Patients With Chronic Congestive Heart Failure, I-92
Emergency Coronary Bypass Not Associated With Preoperative Cardiogenic Shock in Failed Angioplasty, After Thrombolysis, and for Acute Myocardial Infarction, I-152
Evidence of Endothelial Dysfunction in Angiographically Normal Coronary Arteries of Patients With Coronary Artery Disease, 287
Heart Rate Adjustment of ST Segment Depression for Improved Detection of Coronary Artery Disease, 245
Influence of Alteration in Preload on the Pattern of Left Ventricular Diastolic Filling as Assessed by Doppler Echocardiography in Humans, 1226
Neutrophil Function in Ischemic Heart Disease, 549
Quantitative Rotational Tomography With ^{201}Tl and ^{99m}Tc 2-Methoxy-Isobutyl-Isonitrile: A Direct Comparison in Normal Individuals and Patients With Coronary Artery Disease, 1282
Suppression of Silent Ischemia by Metoprolol Without Alteration of Morning Increase of Platelet Aggregability in Patients With Stable Coronary Artery Disease, 557
Surgical Therapy for Left Ventricular Aneurysms: A Ten-Year Experience, I-102
Transcardiac Serotonin Concentration Is Increased in Selected Patients With Limiting Angina and Complex Coronary Lesion Morphology, 116
Coronary artery disease, medical therapy
Asymptomatic Left Main Coronary Artery Disease in the Coronary Artery Surgery Study (CASS) Registry, 1171
Coronary artery disease, surgical therapy
Asymptomatic Left Main Coronary Artery Disease in the Coronary Artery Surgery Study (CASS) Registry, 1171
Coronary artery dissection
Coronary Artery Bypass Surgery After Failed Elective Percutaneous Transluminal Coronary Angioplasty: A Status Report, I-126
Coronary artery fistula
Coronary Artery Fistula in the Heart Transplant Patient: A Potential Complication of Endomyocardial Biopsy, 350
Coronary artery stenosis
Visualization of Subendocardial Myocardial Ischemia With Myocardial Contrast Echocardiography in Humans, 233
Coronary artery vasoconstriction
Local Platelet Activation Causes Vasoconstriction of Large Epicardial Canine Coronary Arteries In Vivo: Thromboxane A_2 and Serotonin Are Possible Mediators, 154
Coronary blood flow
Abnormal Coronary Vasomotion During Exercise in Patients With Normal Coronary Arteries and Reduced Coronary Flow Reserve, 516
Coronary Dilation With Standard Dose Dipyridamole and Dipyridamole Combined With Handgrip, 566
Effects of Regional α- and β-Blockade on Resting and Hyperemic Coronary Blood Flow in Conscious, Unstressed Humans, 797
Nonuniformity of the Transmural Distribution of Coronary Blood Flow During the Cardiac Cycle: In Vivo Documentation by Contrast Echocardiography, 179

Organ Blood Flow and Somatosensory-Evoked Potentials During and After Cardiopulmonary Resuscitation With Epinephrine or Phenylephrine, 1332
Severe Impairment of Coronary Reserve During Rejection in Patients With Orthotopic Heart Transplant, 59
Tissue Acidosis: Role in Sustained Arteriolar Dilatation Distal to a Coronary Stenosis, 890

Coronary circulation, papaverine
Coronary Dilation With Standard Dose Dipyridamole and Dipyridamole Combined With Handgrip, 566

Coronary heart disease
A Decision Scheme for Coronary Angiography After Acute Myocardial Infarction, 292
Development of Coronary Heart Disease in Familial Hypercholesterolemia, 225
High-Density Lipoprotein Cholesterol and Cardiovascular Disease: Four Prospective American Studies, 8
Leisure Time Physical Activity and Coronary Heart Disease Death: The US Railroad Study, 304
Reversal of Atherosis and Sclerosis: The Two Components of Atherosclerosis, 1
Summary of a Consensus Concerning Death and Ischemic Events After Coronary Artery Bypass Grafting, I-81

Coronary perfusion
Vasopressin and the Mature Coronary Collateral Circulation, 1324

Coronary primary prevention trial
High-Density Lipoprotein Cholesterol and Cardiovascular Disease: Four Prospective American Studies, 8

Coronary reperfusion
Does Tissue-Type Plasminogen Activator Have Direct Beneficial Effects on the Myocardium Independent of Its Ability to Lyse Intracoronary Thrombi? 1125
Ischemic Mitral Regurgitation, I-116

Coronary resistance
Abnormal Coronary Vasomotion During Exercise in Patients With Normal Coronary Arteries and Reduced Coronary Flow Reserve, 516
Severe Impairment of Coronary Reserve During Rejection in Patients With Orthotopic Heart Transplant, 59

Coronary spasm
Effect of Magnesium on Anginal Attack Induced by Hyperventilation in Patients With Variant Angina, 597
Effects of Magnesium on the Tone of Isolated Human Coronary Arteries: Comparison With Diltiazem and Nitroglycerin, 1118

Coronary stenosis
Assessment of Coronary Artery Disease Severity by Positron Emission Tomography: Comparison With Quantitative Arteriography in 193 Patients, 825

Coronary thrombolysis
Differential Sensitivity of Erythrocyte-Rich and Platelet-Rich Arterial Thrombi to Lysis With Recombinant Tissue-Type Plasminogen Activator: A Possible Explanation for Resistance to Coronary Thrombolysis, 920

Coronary thrombosis
Clot-Selective Coronary Thrombolysis With Pro-urokinase, 776

Coronary vasomotion
Abnormal Coronary Vasomotion During Exercise in Patients With Normal Coronary Arteries and Reduced Coronary Flow Reserve, 516

Coronary vessels
Direct Vasoconstriction and Endothelium-Dependent Vasodilation: Mechanisms of Acetylcholine Effects on Coronary Flow and Arterial Diameter in Patients With Nonstenotic Coronary Arteries, 1043

Coxsackievirus B3
Monoclonal Antibody Therapy for Prevention of Acute Coxsackievirus B3 Myocarditis in Mice, 1300

Creatine kinase
Importance of Collateral Circulation for Prevention of Left Ventricular Aneurysm Formation in Acute Myocardial Infarction, 791

Cryoablation
Patient Selection Criteria and Results of Surgery for Refractory Ischemic Ventricular Tachycardia, I-163

Cynomolgus monkeys
Effect of Early and Advanced Atherosclerosis on Vascular Responses to Serotonin, Thromboxane A_2, and ADP, 698

Deaggregation
Effects of Aspirin and Prostaglandin E_1 on In Vitro Thrombolysis With Urokinase: Evidence for a Possible Role of Inhibiting Platelet Activity in Thrombolysis, 1309

Defibrillation threshold
Evaluation of Antiarrhythmic Drugs on Defibrillation Energy Requirements in Dogs: Sodium Channel Block and Action Potential Prolongation, 1106

Diagnosis
Diagnosis of Deep Venous Thrombosis: A Prospective Study Comparing Duplex Scanning to Contrast Venography, 810

Diameter
Flow-Mediated and Reflex Changes in Large Peripheral Artery Tone in Humans, 93

Diastolic function
A Hemodynamic and Doppler Echocardiographic Study of Ventricular Function in Long-term Cardiac Allograft Recipients: Etiology and Prognosis of Restrictive-Constrictive Physiology, 66
Influence of Alteration in Preload on the Pattern of Left Ventricular Diastolic Filling as Assessed by Doppler Echocardiography in Humans, 1226

Diltiazem
Exercise-Induced Myocardial Ischemia in a Cold Environment: Effect of Antianginal Medications, 1015

Dipyridamole
Severe Impairment of Coronary Reserve During Rejection in Patients With Orthotopic Heart Transplant, 59

Disease, age-gender-associated
Coronary Bypass Surgery in Chronic Stable Angina, I-46

Dobutamine
Increased β-Receptor Density and Improved Hemodynamic Response to Catecholamine Stimulation During Long-term Metoprolol Therapy in Heart Failure From Dilated Cardiomyopathy, 483

Dogs
Organ Blood Flow and Somatosensory-Evoked Potentials During and After Cardiopulmonary Resuscitation With Epinephrine or Phenylephrine, 1332

Doppler echocardiography
A New Method for Noninvasive Quantification of Valvular Regurgitation Based on Conservation of Momentum: In Vitro Validation, 1343
Coronary Dilation With Standard Dose Dipyridamole and Dipyridamole Combined With Handgrip, 566
Differentiation of Constrictive Pericarditis and Restrictive Cardiomyopathy by Doppler Echocardiography, 357
Hypertrophic Cardiomyopathy in the Elderly: Distinctions From the Young Based on Cardiac Shape, 580
Noninvasive Evaluation of Pulmonary Artery Pressure During Exercise by Saline-Enhanced Doppler Echocardiography in Chronic Pulmonary Disease, 863
Nonuniformity of the Transmural Distribution of Coronary Blood Flow During the Cardiac Cycle: In Vivo Documentation by Contrast Echocardiography, 179
Visualization of Subendocardial Myocardial Ischemia With Myocardial Contrast Echocardiography in Humans, 233

Down-regulation
Distribution of β-Adrenergic Receptors in Failing Human Myocardium: Implications for Mechanisms of Down-Regulation, 1214

Duplex scanning
Diagnosis of Deep Venous Thrombosis: A Prospective Study Comparing Duplex Scanning to Contrast Venography, 810

Effective refractory period
The Human Atrial Strength-Interval Relation: Influence of Cycle Length and Procainamide, 271

Effective vascular compliance
Nitrate Tolerance in Epicardial Arteries or in the Venous System Is Not Reversed by *N*-Acetylcysteine In Vivo, but Tolerance-Independent Interactions Exist, 188
Ejection fraction
A Decision Scheme for Coronary Angiography After Acute Myocardial Infarction, 292
Coronary Bypass Grafting in Patients With Chronic Congestive Heart Failure, I-92
Percutaneous Balloon Valvuloplasty in Patients With Severe Aortic Stenosis and Low Ejection Fraction: Immediate Results and 1-Year Follow-up, 1189
The Risk of Coronary Bypass Surgery for Patients With Postinfarction Angina, I-79
Elastase
Neutrophil Function in Ischemic Heart Disease, 549
Electrical coupling
Modulation of the Purkinje-Ventricular Muscle Junctional Conduction by Elevated Potassium and Hypoxia, 1100
Electrocardiogram
ST Segment Shifts Are Poor Predictors of Subsequent Q Wave Evolution in Acute Myocardial Infarction: A Natural History Study of Early Non–Q Wave Infarction, 537
Electrophysiology
Evaluation of Antiarrhythmic Drugs on Defibrillation Energy Requirements in Dogs: Sodium Channel Block and Action Potential Prolongation, 1106
Emergency coronary bypass surgery
Coronary Artery Bypass Graft Surgery Early After Acute Myocardial Infarction, I-73
Coronary Artery Bypass Surgery After Failed Elective Percutaneous Transluminal Coronary Angioplasty: A Status Report, I-126
Emphysema
Noninvasive Evaluation of Pulmonary Artery Pressure During Exercise by Saline-Enhanced Doppler Echocardiography in Chronic Pulmonary Disease, 863
Enantiomers
Stereoselective Disposition and Pharmacologic Activity of Propafenone Enantiomers, 1068
Encephalomyocarditis virus
Myocardial Uptake of Antimyosin Monoclonal Antibody in a Murine Model of Viral Myocarditis, 400
Endocardial resection
Surgery for Left Ventricular Aneurysm: Early Survival With and Without Endocardial Resection, I-108
Endocardium
Myocardial Inotropic Responses to Aggregating Platelets and Modulation by the Endocardium, 1315
Endomyocardial biopsy
Coronary Artery Fistula in the Heart Transplant Patient: A Potential Complication of Endomyocardial Biopsy, 350
Endothelium
Endothelium-Dependent Arterial Vasoconstriction After Balloon Angioplasty, 899
Flow-Mediated and Reflex Changes in Large Peripheral Artery Tone in Humans, 93
Endothelium-derived relaxing factor
Direct Vasoconstriction and Endothelium-Dependent Vasodilation: Mechanisms of Acetylcholine Effects on Coronary Flow and Arterial Diameter in Patients With Nonstenotic Coronary Arteries, 1043
Evidence of Endothelial Dysfunction in Angiographically Normal Coronary Arteries of Patients With Coronary Artery Disease, 287
Entrainment
Activation Mapping of Reentry Around an Anatomic Barrier in the Canine Atrium: Observations During Entrainment and Termination, 406
Epidemiology
High-Density Lipoprotein Cholesterol and Cardiovascular Disease: Four Prospective American Studies, 8
Epinephrine
Epinephrine-Induced Reversal of Verapamil's Electrophysiologic and Therapeutic Effects in Patients With Paroxysmal Supraventricular Tachycardia, 783
Erythrocyte-rich thrombus
Differential Sensitivity of Erythrocyte-Rich and Platelet-Rich Arterial Thrombi to Lysis With Recombinant Tissue-Type Plasminogen Activator: A Possible Explanation for Resistance to Coronary Thrombolysis, 920
Exercise
Leisure Time Physical Activity and Coronary Heart Disease Death: The US Railroad Study, 304
Noninvasive Evaluation of Pulmonary Artery Pressure During Exercise by Saline-Enhanced Doppler Echocardiography in Chronic Pulmonary Disease, 863
Sympathetic Vasoconstriction During Exercise in Ambulatory Patients With Left Ventricular Failure, 1021
Exercise testing
A Decision Scheme for Coronary Angiography After Acute Myocardial Infarction, 292
Exercise Training in Patients With Chronic Heart Failure Delays Ventilatory Anaerobic Threshold and Improves Submaximal Exercise Performance, 324
Heart Rate Adjustment of ST Segment Depression for Improved Detection of Coronary Artery Disease, 245
Extracellular K^+ and pH
Effects of Verapamil and Propranolol on Changes in Extracellular K^+, pH, and Local Activation During Graded Coronary Flow in the Pig, 939
Extracorporeal membrane oxygenation
Emergency Management of Cardiogenic Shock, I-149
Failing human myocardium
Distribution of β-Adrenergic Receptors in Failing Human Myocardium: Implications for Mechanisms of Down-Regulation, 1214
Familial hypercholesterolemia
Development of Coronary Heart Disease in Familial Hypercholesterolemia, 225
Induction of mRNA for Low-Density Lipoprotein Receptors in Heterozygous Watanabe Heritable Hyperlipidemic Rabbits Treated With CS-514 (Pravastatin) and Cholestyramine, 1084
Influence of Lovastatin Plus Gemfibrozil on Plasma Lipids and Lipoproteins in Patients With Heterozygous Familial Hypercholesterolemia, 590
Intensive Combination Drug Therapy of Familial Hypercholesterolemia With Lovastatin, Probucol, and Colestipol Hydrochloride, 16
Fibrin and fibrinogen degradation products
Increased Immunoreactivity of Plasma After Fibrinolytic Activation in an Anti-DD ELISA System: Role of Soluble Crosslinked Fibrin Polymers, 666
Fibrin generation
Monitoring of Fibrin Generation During Thrombolytic Therapy of Acute Myocardial Infarction With Recombinant Tissue-Type Plasminogen Activator, 980
Fibrinolysis
Clot-Selective Coronary Thrombolysis With Pro-urokinase, 776
Diurnal Variation of Tissue-Type Plasminogen Activator and its Rapid Inhibitor (PAI-1), 101
Increased Immunoreactivity of Plasma After Fibrinolytic Activation in an Anti-DD ELISA System: Role of Soluble Crosslinked Fibrin Polymers, 666
Time Course of Thrombolysis Induced by Intravenous Bolus or Infusion of Tissue Plasminogen Activator in a Rabbit Jugular Vein Thrombosis Model, 125
Fibrinopeptide A
Monitoring of Fibrin Generation During Thrombolytic Therapy of Acute Myocardial Infarction With Recombinant Tissue-Type Plasminogen Activator, 980
Flow
Flow-Mediated and Reflex Changes in Large Peripheral Artery Tone in Humans, 93

Fluosol-DA
Limitation of Myocardial Reperfusion Injury by Intravenous Perfluorochemicals: Role of Neutrophil Activation, 645
Framingham Heart Study
High-Density Lipoprotein Cholesterol and Cardiovascular Disease: Four Prospective American Studies, 8
Frank-Starling relation
Influence of Contractile State on Curvilinearity of In Situ End-Systolic Pressure-Volume Relations, 167
Free graft
Use of Internal Thoracic Artery for Coronary Artery Grafting, I-30
Gap phenomenon
A New Mechanism for Atrioventricular Nodal Gap–Vagal Modulation of Conduction, 417
Gemfibrozil
Influence of Lovastatin Plus Gemfibrozil on Plasma Lipids and Lipoproteins in Patients With Heterozygous Familial Hypercholesterolemia, 590
Genetics
Prevalence of Hyperhomocyst(e)inemia in Patients With Peripheral Arterial Occlusive Disease, 1180
Grafts
Differences in α-Adrenergic Responsiveness Between Human Internal Mammary Arteries and Saphenous Veins, 1264
New Arteries for Old, I-40
Use of Internal Thoracic Artery for Coronary Artery Grafting, I-30
Heart
Cardiac and Vascular Effects of Atrial Natriuretic Factor and Sodium Nitroprusside in Healthy Men, 383
Role of β_1-Receptors and Vagal Tone in Cardiac Inotropic and Chronotropic Responses to a β_2-Agonist in Humans, 107
Heart defect, congenital
Transcatheter Closure of Atrial Septal Defects: Experimental Studies, 1091
Heart disease
Sudden Coronary Death in the United States: 1980–1985, 756
Heart failure
Atrial Natriuretic Peptide in a Rat Model of Cardiac Failure: Atrial and Ventricular mRNA, Atrial Content, Plasma Levels, and Effect of Volume Loading, 620
Coronary Artery Bypass Graft Surgery Early After Acute Myocardial Infarction, I-73
Effect of Acute Volume Load on Refractoriness and Arrhythmia Development in Isolated, Chronically Infarcted Canine Hearts, 687
Stress-Shortening Relations and Myocardial Blood Flow in Compensated and Failing Canine Hearts With Pressure-Overload Hypertrophy, 872
Sympathetic Vasoconstriction During Exercise in Ambulatory Patients With Left Ventricular Failure, 1021
Heart rate
Amplification of Flecainide-Induced Ventricular Conduction Slowing by Exercise: A Potentially Significant Clinical Consequence of Use-Dependent Sodium Channel Blockade, 1000
Power Spectrum Analysis of Heart Rate Variability in Human Cardiac Transplant Recipients, 76
Quinidine-Induced Action Potential Prolongation, Early Afterdepolarizations, and Triggered Activity in Canine Purkinje Fibers: Effects of Stimulation Rate, Potassium, and Magnesium, 674
Heart-related variability
Sources of Variability in Normal Body Surface Potential Maps, 1077
Heart sounds
Functional Abnormalities in Isolated Left Bundle Branch Block: The Effect of Interventricular Asynchrony, 845
Heart transplantation
Coronary Artery Fistula in the Heart Transplant Patient: A Potential Complication of Endomyocardial Biopsy, 350
Increasing Pericardial Effusion in Cardiac Transplant Recipients, 603
Severe Impairment of Coronary Reserve During Rejection in Patients With Orthotopic Heart Transplant, 59
Hemodynamics
Arterial Hemodynamic Indexes in Marfan's Syndrome, 854
Atrial Natriuretic Peptide in a Rat Model of Cardiac Failure: Atrial and Ventricular mRNA, Atrial Content, Plasma Levels, and Effect of Volume Loading, 620
Differentiation of Constrictive Pericarditis and Restrictive Cardiomyopathy by Doppler Echocardiography, 357
Protective Effects of Retrograde Compared With Antegrade Cardioplegia on Right Ventricular Systolic and Diastolic Function During Coronary Bypass Surgery, 1271
Heparin
Effects of Thrombin Inhibition on the Development of Acute Platelet-Thrombus Deposition During Angioplasty in Pigs: Heparin Versus Recombinant Hirudin, a Specific Thrombin Inhibitor, 657
High density lipoprotein
High-Density Lipoprotein Cholesterol and Cardiovascular Disease: Four Prospective American Studies, 8
Influence of Lovastatin Plus Gemfibrozil on Plasma Lipids and Lipoproteins in Patients With Heterozygous Familial Hypercholesterolemia, 590
High-risk patients
Coronary Bypass Surgery in Chronic Stable Angina, I-46
Hirudin
Effects of Thrombin Inhibition on the Development of Acute Platelet-Thrombus Deposition During Angioplasty in Pigs: Heparin Versus Recombinant Hirudin, a Specific Thrombin Inhibitor, 657
His-Purkinje conduction
Cardiac Conduction Abnormalities During Percutaneous Balloon Mitral or Aortic Valvotomy, 1197
HMG-CoA reductase inhibitor
Induction of mRNA for Low-Density Lipoprotein Receptors in Heterozygous Watanabe Heritable Hyperlipidemic Rabbits Treated With CS-514 (Pravastatin) and Cholestyramine, 1084
Holter monitoring
Suppression of Silent Ischemia by Metoprolol Without Alteration of Morning Increase of Platelet Aggregability in Patients With Stable Coronary Artery Disease, 557
Human coronary artery
Effects of Magnesium on the Tone of Isolated Human Coronary Arteries: Comparison With Diltiazem and Nitroglycerin, 1118
Humans
Flow-Mediated and Reflex Changes in Large Peripheral Artery Tone in Humans, 93
Hypertrophic cardiomyopathy
β-Adrenergic Stimulation With Isoproterenol Enhances Left Ventricular Diastolic Performance in Hypertrophic Cardiomyopathy Despite Potentiation of Myocardial Ischemia: Comparison to Rapid Atrial Pacing, 371
Effect of Surgical Reduction of Left Ventricular Outflow Obstruction on Hemodynamics, Coronary Flow, and Myocardial Metabolism in Hypertrophic Cardiomyopathy, 766
Verapamil Prevents Silent Myocardial Perfusion Abnormalities During Exercise in Asymptomatic Patients With Hypertrophic Cardiomyopathy, 1052
Hypertrophy
Determination Imaging of Left Ventricular Mass by Magnetic Resonance in Hearts Deformed by Acute Infarction, 706
Stress-Shortening Relations and Myocardial Blood Flow in Compensated and Failing Canine Hearts With Pressure-Overload Hypertrophy, 872
Hyperventilation
Effect of Magnesium on Anginal Attack Induced by Hyperventilation in Patients With Variant Angina, 597
Hypolipidemic agents
Influence of Lovastatin Plus Gemfibrozil on Plasma Lipids and Lipoproteins in Patients With Heterozygous Familial Hypercholesterolemia, 590

Ibuprofen
Endothelium-Dependent Arterial Vasoconstriction After Balloon Angioplasty, 899
Idiopathic hypertrophic subaortic stenosis
Hypertrophic Cardiomyopathy in the Elderly: Distinctions From the Young Based on Cardiac Shape, 580
Imaging
Myocardial Uptake of Antimyosin Monoclonal Antibody in a Murine Model of Viral Myocarditis, 400
Immune system
Monoclonal Antibody Therapy for Prevention of Acute Coxsackievirus B3 Myocarditis in Mice, 1300
Impedance
Arterial Hemodynamic Indexes in Marfan's Syndrome, 854
Inadequate ventricular hypertrophy
Assessment of Ventricular Contractile State and Function in Patients With Univentricular Heart, 1247
Indomethacin
Endothelium-Dependent Arterial Vasoconstriction After Balloon Angioplasty, 899
Infarct size
Atrial Natriuretic Peptide in a Rat Model of Cardiac Failure: Atrial and Ventricular mRNA, Atrial Content, Plasma Levels, and Effect of Volume Loading, 620
Infarctectomy
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137
Intense physical activity
Leisure Time Physical Activity and Coronary Heart Disease Death: The US Railroad Study, 304
Internal mammary artery
Alternative Conduits for Aortocoronary Bypass Grafting, I-34
Coronary Artery Bypass Grafting With Saphenous Vein, I-24
Internal thoracic artery graft
New Arteries for Old, I-40
Use of Internal Thoracic Artery for Coronary Artery Grafting, I-30
Interstitial fibrosis
Left Ventricular Myocardial Structure in Aortic Valve Disease Before, Intermediate, and Late After Aortic Valve Replacement, 744
Interventricular septum
Functional Abnormalities in Isolated Left Bundle Branch Block: The Effect of Interventricular Asynchrony, 845
Intra-aortic balloon pump
Coronary Artery Bypass Grafting for Postinfarction Angina Pectoris, I-68
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137
Emergency Management of Cardiogenic Shock, I-149
The Risk of Coronary Bypass Surgery for Patients With Postinfarction Angina, I-79
Intracoronary thrombolysis
Importance of Collateral Circulation for Prevention of Left Ventricular Aneurysm Formation in Acute Myocardial Infarction, 791
Intravenous gamma globulin
Left Ventricular Contractility and Function in Kawasaki Syndrome: Effect of Intravenous γ-Globulin, 1237
Intraventricular conduction defect
Cardiac Conduction Abnormalities During Percutaneous Balloon Mitral or Aortic Valvotomy, 1197
Ischemic heart disease
Surgery for Mitral Regurgitation Associated With Ischemic Heart Disease: Results and Strategies, I-122
Ischemic mitral insufficiency
Coronary Artery Bypass Grafting in the Presence of Valvular Disease, I-182
Ischemic mitral regurgitation
Ischemic Mitral Regurgitation, I-116
Isometric exercise
Evidence for Cholinergically Mediated Vasodilation at the Beginning of Isometric Exercise in Humans, 815
Isoproterenol
β-Adrenergic Stimulation With Isoproterenol Enhances Left Ventricular Diastolic Performance in Hypertrophic Cardiomyopathy Despite Potentiation of Myocardial Ischemia: Comparison to Rapid Atrial Pacing, 371
Japanese diet trends
Trends for Coronary Heart Disease and Stroke and Their Risk Factors in Japan, 503
Kawasaki disease
Left Ventricular Contractility and Function in Kawasaki Syndrome: Effect of Intravenous γ-Globulin, 1237
Lactate
Exercise Training in Patients With Chronic Heart Failure Delays Ventilatory Anaerobic Threshold and Improves Submaximal Exercise Performance, 324
Late infarction
New Arteries for Old, I-40
Left atrial pressure
Rapid Reduction of Plasma Atrial Natriuretic Peptide Levels During Percutaneous Transvenous Mitral Commissurotomy in Patients With Mitral Stenosis, 47
Left bundle branch block
Functional Abnormalities in Isolated Left Bundle Branch Block: The Effect of Interventricular Asynchrony, 845
Left main coronary artery disease
Asymptomatic Left Main Coronary Artery Disease in the Coronary Artery Surgery Study (CASS) Registry, 1171
Left ventricular end-systolic pressure-volume relation
Preload-Induced Curvilinearity of Left Ventricular End-Systolic Pressure-Volume Relations: Effects on Derived Indexes in Closed-Chest Dogs, 431
Left ventricular function
β-Adrenergic Stimulation With Isoproterenol Enhances Left Ventricular Diastolic Performance in Hypertrophic Cardiomyopathy Despite Potentiation of Myocardial Ischemia: Comparison to Rapid Atrial Pacing, 371
Importance of Collateral Circulation for Prevention of Left Ventricular Aneurysm Formation in Acute Myocardial Infarction, 791
Left Ventricular Structure and Function in Aortic Valve Disease, 966
Left ventricular hypertrophy
Improved Diagnostic Performance on the Severity of Left Ventricular Hypertrophy With Body Surface Mapping, 312
Left Ventricular Myocardial Structure in Aortic Valve Disease Before, Intermediate, and Late After Aortic Valve Replacement, 744
Left ventricular wall thickness
Superoxide Dismutase Reduces Reperfusion Arrhythmias but Fails to Salvage Regional Function or Myocardium at Risk in Conscious Dogs, 143
Leisure time physical activity
Leisure Time Physical Activity and Coronary Heart Disease Death: The US Railroad Study, 304
Leukotriene B_4
Neutrophil Function in Ischemic Heart Disease, 549
Lipid Research Clinics
High-Density Lipoprotein Cholesterol and Cardiovascular Disease: Four Prospective American Studies, 8
Lipoprotein metabolism
Induction of mRNA for Low-Density Lipoprotein Receptors in Heterozygous Watanabe Heritable Hyperlipidemic Rabbits Treated With CS-514 (Pravastatin) and Cholestyramine, 1084
Lovastatin
Influence of Lovastatin Plus Gemfibrozil on Plasma Lipids and Lipoproteins in Patients With Heterozygous Familial Hypercholesterolemia, 590
Intensive Combination Drug Therapy of Familial Hypercholesterolemia With Lovastatin, Probucol, and Colestipol Hydrochloride, 16

Low density lipoproteins
Influence of Lovastatin Plus Gemfibrozil on Plasma Lipids and Lipoproteins in Patients With Heterozygous Familial Hypercholesterolemia, 590
Low-flow ischemia
Effects of Verapamil and Propranolol on Changes in Extracellular K^+, pH, and Local Activation During Graded Coronary Flow in the Pig, 939
Low oxygen breathing
Enhanced Hypoxic Pulmonary Vasoconstriction in Hypertension, 337
Macroreentry
Sustained Bundle Branch Reentry as a Mechanism of Clinical Tachycardia, 256
Magnesium
Effect of Magnesium on Anginal Attack Induced by Hyperventilation in Patients With Variant Angina, 597
Effects of Magnesium on the Tone of Isolated Human Coronary Arteries: Comparison With Diltiazem and Nitroglycerin, 1118
Maintenance of arteriolar dilation
Tissue Acidosis: Role in Sustained Arteriolar Dilatation Distal to a Coronary Stenosis, 890
Mapping
Activation Mapping of Reentry Around an Anatomic Barrier in the Canine Atrium: Observations During Entrainment and Termination, 406
Marfan's syndrome
Arterial Hemodynamic Indexes in Marfan's Syndrome, 854
Mechanical circulatory assistance
A Critique of Emergency and Urgent Operations for Complications of Coronary Artery Disease, I-160
Medical therapy
Coronary Bypass Surgery in Chronic Stable Angina, I-46
Metaiodobenzylguanidine
Scintigraphic Assessment of Regional Cardiac Adrenergic Innervation, 634
2-Methoxy-isobutyl-isonitrile
Quantitative Rotational Tomography With ^{201}Tl and ^{99m}Tc 2-Methoxy-Isobutyl-Isonitrile: A Direct Comparison in Normal Individuals and Patients With Coronary Artery Disease, 1282
Metoprolol
Suppression of Silent Ischemia by Metoprolol Without Alteration of Morning Increase of Platelet Aggregability in Patients With Stable Coronary Artery Disease, 557
Microneurography
Importance of Aortic Baroreflex in Regulation of Sympathetic Responses During Hypotension: Evidence From Direct Sympathetic Nerve Recordings in Humans, 83
Mitral balloon valvotomy
Follow-up of Patients Undergoing Percutaneous Mitral Balloon Valvotomy: Analysis of Factors Determining Restenosis, 573
Mitral prosthesis obstruction
Mitral Prosthesis Malfunction: Comparative Doppler Echocardiographic Studies of Mitral Prostheses Before and After Replacement, 330
Mitral prosthesis regurgitation
Mitral Prosthesis Malfunction: Comparative Doppler Echocardiographic Studies of Mitral Prostheses Before and After Replacement, 330
Mitral regurgitation
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137
Quantification of Mitral Regurgitation With Amplitude-Weighted Mean Velocity From Continuous Wave Doppler Spectra, 1294
Surgery for Mitral Regurgitation Associated With Ischemic Heart Disease: Results and Strategies, I-122
Mitral stenosis
Cardiac Conduction Abnormalities During Percutaneous Balloon Mitral or Aortic Valvotomy, 1197
Follow-up of Patients Undergoing Percutaneous Mitral Balloon Valvotomy: Analysis of Factors Determining Restenosis, 573
Progressive Improvement in Pulmonary Vascular Resistance After Percutaneous Mitral Valvuloplasty, 1061
Mitral valve
Surgery for Mitral Regurgitation Associated With Ischemic Heart Disease: Results and Strategies, I-122
Mitral valve area
Mitral Prosthesis Malfunction: Comparative Doppler Echocardiographic Studies of Mitral Prostheses Before and After Replacement, 330
Mitral valve repair
Coronary Artery Bypass Grafting in the Presence of Valvular Disease, I-182
Ischemic Mitral Regurgitation, I-116
Surgery for Mitral Regurgitation Associated With Ischemic Heart Disease: Results and Strategies, I-122
Mitral valve replacement
Coronary Artery Bypass Grafting in the Presence of Valvular Disease, I-182
Ischemic Mitral Regurgitation, I-116
Surgery for Mitral Regurgitation Associated With Ischemic Heart Disease: Results and Strategies, I-122
Treatment of Recurrent Ventricular Tachycardia and Operation for Combined Ischemia and Valvular Disease, I-191
Moderate intensity physical activity
Leisure Time Physical Activity and Coronary Heart Disease Death: The US Railroad Study, 304
Monoclonal antibody therapy
Monoclonal Antibody Therapy for Prevention of Acute Coxsackievirus B3 Myocarditis in Mice, 1300
Mortality rate
A Method of Uniform Stratification of Risk for Evaluating the Results of Surgery in Acquired Adult Heart Disease, I-3
mRNA
Atrial Natriuretic Peptide in a Rat Model of Cardiac Failure: Atrial and Ventricular mRNA, Atrial Content, Plasma Levels, and Effect of Volume Loading, 620
Murine model
Monoclonal Antibody Therapy for Prevention of Acute Coxsackievirus B3 Myocarditis in Mice, 1300
Myocardial β-receptor density
Increased β-Receptor Density and Improved Hemodynamic Response to Catecholamine Stimulation During Long-term Metoprolol Therapy in Heart Failure From Dilated Cardiomyopathy, 483
Myocardial blood flow
Reperfusion Alters the Relation Between Blood Flow and the Remaining Myocardial Infarction, 884
Stress-Shortening Relations and Myocardial Blood Flow in Compensated and Failing Canine Hearts With Pressure-Overload Hypertrophy, 872
Myocardial contractile dysfunction
Assessment of Ventricular Contractile State and Function in Patients With Univentricular Heart, 1247
Myocardial function
Left Ventricular Contractility and Function in Kawasaki Syndrome: Effect of Intravenous γ-Globulin, 1237
Myocardial hemorrhage
Does Tissue-Type Plasminogen Activator Have Direct Beneficial Effects on the Myocardium Independent of Its Ability to Lyse Intracoronary Thrombi? 1125
Myocardial infarct size
Does Tissue-Type Plasminogen Activator Have Direct Beneficial Effects on the Myocardium Independent of Its Ability to Lyse Intracoronary Thrombi? 1125
Myocardial infarction
A Randomized Controlled Trial of Intravenous Tissue Plasminogen Activator and Early Intravenous Heparin in Acute Myocardial Infarction, 281
Coronary Artery Bypass Surgery After Failed Elective Percutaneous Transluminal Coronary Angioplasty: A Status Report, I-126

Effect of Acute Volume Load on Refractoriness and Arrhythmia Development in Isolated, Chronically Infarcted Canine Hearts, 687
Reperfusion Alters the Relation Between Blood Flow and the Remaining Myocardial Infarction, 884
Short- and Long-term Clinical Outcome After Q Wave and Non–Q Wave Myocardial Infarction in a Large Patient Population, 528
Superoxide Dismutase Reduces Reperfusion Arrhythmias but Fails to Salvage Regional Function or Myocardium at Risk in Conscious Dogs, 143

Myocardial ischemia
β-Adrenergic Stimulation With Isoproterenol Enhances Left Ventricular Diastolic Performance in Hypertrophic Cardiomyopathy Despite Potentiation of Myocardial Ischemia: Comparison to Rapid Atrial Pacing, 371
Emergency Coronary Bypass Not Associated With Preoperative Cardiogenic Shock in Failed Angioplasty, After Thrombolysis, and for Acute Myocardial Infarction, I-152
Limitation of Myocardial Reperfusion Injury by Intravenous Perfluorochemicals: Role of Neutrophil Activation, 645
Superoxide Dismutase Reduces Reperfusion Arrhythmias but Fails to Salvage Regional Function or Myocardium at Risk in Conscious Dogs, 143
Verapamil Prevents Silent Myocardial Perfusion Abnormalities During Exercise in Asymptomatic Patients With Hypertrophic Cardiomyopathy, 1052
Visualization of Subendocardial Myocardial Ischemia With Myocardial Contrast Echocardiography in Humans, 233

Myocardial perfusion
Nonuniformity of the Transmural Distribution of Coronary Blood Flow During the Cardiac Cycle: In Vivo Documentation by Contrast Echocardiography, 179

Myocardial revascularization
Acute Ischemic Ventricular Septal Defect, I-112
Coronary Bypass Grafting in Patients With Chronic Congestive Heart Failure, I-92
Ventricular Aneurysm Resection: Trends in Surgical Risk, I-97

Myocardial structure
Left Ventricular Myocardial Structure in Aortic Valve Disease Before, Intermediate, and Late After Aortic Valve Replacement, 744

Myocarditis
Left Ventricular Contractility and Function in Kawasaki Syndrome: Effect of Intravenous γ-Globulin, 1237
Monoclonal Antibody Therapy for Prevention of Acute Coxsackievirus B3 Myocarditis in Mice, 1300

Myosin
Myocardial Uptake of Antimyosin Monoclonal Antibody in a Murine Model of Viral Myocarditis, 400

Neutrophils
Does Tissue-Type Plasminogen Activator Have Direct Beneficial Effects on the Myocardium Independent of Its Ability to Lyse Intracoronary Thrombi? 1125
Limitation of Myocardial Reperfusion Injury by Intravenous Perfluorochemicals: Role of Neutrophil Activation, 645
Neutrophil Function in Ischemic Heart Disease, 549

Noninvasive imaging
Reversal of Atherosis and Sclerosis: The Two Components of Atherosclerosis, 1

Non–Q wave infarction
Short- and Long-term Clinical Outcome After Q Wave and Non–Q Wave Myocardial Infarction in a Large Patient Population, 528
ST Segment Shifts Are Poor Predictors of Subsequent Q Wave Evolution in Acute Myocardial Infarction: A Natural History Study of Early Non–Q Wave Infarction, 537

No-reflow phenomenon
Limitation of Myocardial Reperfusion Injury by Intravenous Perfluorochemicals: Role of Neutrophil Activation, 645

Norepinephrine
Arterial Baroreflex Abnormalities in Heart Failure: Reversal After Orthotopic Cardiac Transplantation, 51

Nuclear magnetic resonance imaging
Determination Imaging of Left Ventricular Mass by Magnetic Resonance in Hearts Deformed by Acute Infarction, 706

Open-heart surgery
A Method of Uniform Stratification of Risk for Evaluating the Results of Surgery in Acquired Adult Heart Disease, I-3

Operative mortality
Acute Ischemic Ventricular Septal Defect, I-112
Coronary Artery Bypass Grafting in the Presence of Valvular Disease, I-182
In Search of the Optimal Surgical Mortality, I-132
Myocardial Revascularization for Unstable Angina Pectoris, I-60
The Risk of Coronary Bypass Surgery for Patients With Postinfarction Angina, I-79

Operative risk
In Search of the Optimal Surgical Mortality, I-132
Ventricular Aneurysm Resection: Trends in Surgical Risk, I-97

Operative risk, variables affecting
Surgical Therapy for Left Ventricular Aneurysms: A Ten-Year Experience, I-102

Oxygen consumption
Noninvasive Quantitation of Regional Myocardial Oxygen Consumption In Vivo With [1-^{11}C]Acetate and Dynamic Positron Emission Tomography, 134

Oxygen free radicals
Superoxide Dismutase Reduces Reperfusion Arrhythmias but Fails to Salvage Regional Function or Myocardium at Risk in Conscious Dogs, 143

Papillary muscle dysfunction
Ischemic Mitral Regurgitation, I-116

Parametric survival curves
Risk Factors for Mortality After Primary Combined Valvular and Coronary Artery Surgery, I-185

Paroxysmal
Epinephrine-Induced Reversal of Verapamil's Electrophysiologic and Therapeutic Effects in Patients With Paroxysmal Supraventricular Tachycardia, 783

Patency
Differences in α-Adrenergic Responsiveness Between Human Internal Mammary Arteries and Saphenous Veins, 1264

Patency rates
Coronary Artery Bypass Grafting With Saphenous Vein, I-24

Patient characteristics
Relation of Baseline Characteristics to Suppression of Ventricular Arrhythmias During Placebo and Active Antiarrhythmic Therapy in Patients After Myocardial Infarction, 610

Patient survival
New Arteries for Old, I-40

P_{CO_2}
Tissue Acidosis: Role in Sustained Arteriolar Dilatation Distal to a Coronary Stenosis, 890

Pedicle graft
Use of Internal Thoracic Artery for Coronary Artery Grafting, I-30

Percutaneous ablation
Transcoronary Chemical Ablation of Ventricular Tachycardia, 475

Percutaneous transluminal coronary angioplasty
Coronary Arteriography and Percutaneous Transluminal Coronary Angioplasty: Changing Patterns of Use and Results, I-19
Coronary Artery Bypass Surgery After Failed Elective Percutaneous Transluminal Coronary Angioplasty: A Status Report, I-126
Tear or Dissection After Coronary Angioplasty: Morphologic Correlates of an Ischemic Complication, 1035

Perfluorochemicals
Limitation of Myocardial Reperfusion Injury by Intravenous Perfluorochemicals: Role of Neutrophil Activation, 645

Perfusion imaging
Assessment of Coronary Artery Disease Severity by Positron Emission Tomography: Comparison With Quantitative Arteriography in 193 Patients, 825
Pericardial effusion
Increasing Pericardial Effusion in Cardiac Transplant Recipients, 603
Perioperative myocardial infarction
Myocardial Revascularization for Unstable Angina Pectoris, I-60
Peripheral circulation
Effect of Early and Advanced Atherosclerosis on Vascular Responses to Serotonin, Thromboxane A_2, and ADP, 698
Peripheral vascular effects
Contrasting Peripheral Short-term and Long-term Effects of Converting Enzyme Inhibition in Patients With Congestive Heart Failure: A Double-Blind, Placebo-Controlled Trial, 491
pH
Tissue Acidosis: Role in Sustained Arteriolar Dilatation Distal to a Coronary Stenosis, 890
Pharmacodynamics
Amplification of Flecainide-Induced Ventricular Conduction Slowing by Exercise: A Potentially Significant Clinical Consequence of Use-Dependent Sodium Channel Blockade, 1000
Physical exercise conditioning
Physical Exercise Conditioning in the Absence of Weight Loss Reduces Fasting and Postprandial Triglyceride-Rich Lipoprotein Levels, 1007
Plasma aldosterone concentration
Rapid Reduction of Plasma Atrial Natriuretic Peptide Levels During Percutaneous Transvenous Mitral Commissurotomy in Patients With Mitral Stenosis, 47
Plasma norepinephrine concentration
Rapid Reduction of Plasma Atrial Natriuretic Peptide Levels During Percutaneous Transvenous Mitral Commissurotomy in Patients With Mitral Stenosis, 47
Plasma renin activity
Rapid Reduction of Plasma Atrial Natriuretic Peptide Levels During Percutaneous Transvenous Mitral Commissurotomy in Patients With Mitral Stenosis, 47
Plasminogen activator inhibitor-1
Dependence of Fibrinolytic Activity on the Concentration of Free Rather Than Total Tissue-Type Plasminogen Activator in Plasma After Pharmacologic Administration, 1204
Diurnal Variation of Tissue-Type Plasminogen Activator and Its Rapid Inhibitor (PAI-1), 101
Platelet-rich thrombus
Differential Sensitivity of Erythrocyte-Rich and Platelet-Rich Arterial Thrombi to Lysis With Recombinant Tissue-Type Plasminogen Activator: A Possible Explanation for Resistance to Coronary Thrombolysis, 920
Platelets
Coronary Artery Bypass Grafting With Saphenous Vein, I-24
Effect of Early and Advanced Atherosclerosis on Vascular Responses to Serotonin, Thromboxane A_2, and ADP, 698
Simultaneous Administration of Thromboxane A_2– and Serotonin S_2–Receptor Antagonists Markedly Enhances Thrombolysis and Prevents or Delays Reocclusion After Tissue-Type Plasminogen Activator in a Canine Model of Coronary Thrombosis, 911
Suppression of Silent Ischemia by Metoprolol Without Alteration of Morning Increase of Platelet Aggregability in Patients With Stable Coronary Artery Disease, 557
Transcardiac Serotonin Concentration Is Increased in Selected Patients With Limiting Angina and Complex Coronary Lesion Morphology, 116
Population surveys
Trends for Coronary Heart Disease and Stroke and Their Risk Factors in Japan, 503
Positron emission tomography
Noninvasive Quantitation of Regional Myocardial Oxygen Consumption In Vivo With [1-^{11}C]Acetate and Dynamic Positron Emission Tomography, 134
Postinfarction angina
Coronary Artery Bypass Grafting for Postinfarction Angina Pectoris, I-68
Postoperative complications
Coronary Artery Bypass Graft Surgery Early After Acute Myocardial Infarction, I-73
Postoperative survival
Coronary Bypass Grafting in Patients With Chronic Congestive Heart Failure, I-92
Postprandial lipoproteins
Physical Exercise Conditioning in the Absence of Weight Loss Reduces Fasting and Postprandial Triglyceride-Rich Lipoprotein Levels, 1007
Power spectrum
Power Spectrum Analysis of Heart Rate Variability in Human Cardiac Transplant Recipients, 76
Pressoreceptors
Importance of Aortic Baroreflex in Regulation of Sympathetic Responses During Hypotension: Evidence From Direct Sympathetic Nerve Recordings in Humans, 83
Pressure half-time
Mitral Prosthesis Malfunction: Comparative Doppler Echocardiographic Studies of Mitral Prostheses Before and After Replacement, 330
Pressure-volume relations
Influence of Contractile State on Curvilinearity of In Situ End-Systolic Pressure-Volume Relations, 167
Probucol
Intensive Combination Drug Therapy of Familial Hypercholesterolemia With Lovastatin, Probucol, and Colestipol Hydrochloride, 16
Procainamide
Predicting Ventricular Tachycardia Cycle Length After Procainamide by Assessing Cycle Length–Dependent Changes in Paced QRS Duration, 39
The Human Atrial Strength-Interval Relation: Influence of Cycle Length and Procainamide, 271
Prognosis
A Decision Scheme for Coronary Angiography After Acute Myocardial Infarction, 292
Short- and Long-term Clinical Outcome After Q Wave and Non–Q Wave Myocardial Infarction in a Large Patient Population, 528
Programmed electrical stimulation
Nonischemic Ventricular Tachycardia: Clinical Course and Long-term Follow-up in Patients Without Clinically Overt Heart Disease, 990
Propafenone
Stereoselective Disposition and Pharmacologic Activity of Propafenone Enantiomers, 1068
Propranolol
Evidence for Cholinergically Mediated Vasodilation at the Beginning of Isometric Exercise in Humans, 815
Exercise-Induced Myocardial Ischemia in a Cold Environment: Effect of Antianginal Medications, 1015
Prostaglandin
In Vivo Measurement of Thromboxane B_2 and 6-Keto-Prostaglandin $F_{1\alpha}$ in Humans in Response to a Standardized Vascular Injury and the Influence of Aspirin, 29
Prostaglandin E_1
Effects of Aspirin and Prostaglandin E_1 on In Vitro Thrombolysis With Urokinase: Evidence for a Possible Role of Inhibiting Platelet Activity in Thrombolysis, 1309
PTFE graft
Alternative Conduits for Aortocoronary Bypass Grafting, I-34
Pulmonary embolism
Recombinant Tissue-Type Plasminogen Activator in Canine Embolic Pulmonary Hypertension: Effects of Bolus Versus Short-term Administration on Dynamics of Thrombolysis and on Pulmonary Vascular Pressure-Flow Characteristics, 929

Pulmonary hypertension
Noninvasive Evaluation of Pulmonary Artery Pressure During Exercise by Saline-Enhanced Doppler Echocardiography in Chronic Pulmonary Disease, 863
Progressive Improvement in Pulmonary Vascular Resistance After Percutaneous Mitral Valvuloplasty, 1061
Recombinant Tissue-Type Plasminogen Activator in Canine Embolic Pulmonary Hypertension: Effects of Bolus Versus Short-term Administration on Dynamics of Thrombolysis and on Pulmonary Vascular Pressure-Flow Characteristics, 929

Pulmonary pressure-flow relation
Recombinant Tissue-Type Plasminogen Activator in Canine Embolic Pulmonary Hypertension: Effects of Bolus Versus Short-term Administration on Dynamics of Thrombolysis and on Pulmonary Vascular Pressure-Flow Characteristics, 929

Q wave infarction
Short- and Long-term Clinical Outcome After Q Wave and Non–Q Wave Myocardial Infarction in a Large Patient Population, 528

Q wave myocardial infarction
Coronary Artery Bypass Graft Surgery Early After Acute Myocardial Infarction, I-73

Quantitative coronary arteriography
Abnormal Coronary Vasomotion During Exercise in Patients With Normal Coronary Arteries and Reduced Coronary Flow Reserve, 516
Assessment of Coronary Artery Disease Severity by Positron Emission Tomography: Comparison With Quantitative Arteriography in 193 Patients, 825

Radial artery graft
Alternative Conduits for Aortocoronary Bypass Grafting, I-34

Randomized trials
Coronary Bypass Surgery in Chronic Stable Angina, I-46

Rank of variability components
Sources of Variability in Normal Body Surface Potential Maps, 1077

Rapid atrial pacing stress test
Visualization of Subendocardial Myocardial Ischemia With Myocardial Contrast Echocardiography in Humans, 233

Recombinant tissue-type plasminogen activator
Differential Sensitivity of Erythrocyte-Rich and Platelet-Rich Arterial Thrombi to Lysis With Recombinant Tissue-Type Plasminogen Activator: A Possible Explanation for Resistance to Coronary Thrombolysis, 920
Monitoring of Fibrin Generation During Thrombolytic Therapy of Acute Myocardial Infarction With Recombinant Tissue-Type Plasminogen Activator, 980
Recombinant Tissue-Type Plasminogen Activator in Canine Embolic Pulmonary Hypertension: Effects of Bolus Versus Short-term Administration on Dynamics of Thrombolysis and on Pulmonary Vascular Pressure-Flow Characteristics, 929
Synergistic Combinations of Recombinant Human Tissue-Type Plasminogen Activator and Human Single-Chain Urokinase-Type Plasminogen Activator: Effect on Thrombolysis and Reocclusion in a Canine Coronary Artery Thrombosis Model With High-Grade Stenosis, 393

Reentry
Activation Mapping of Reentry Around an Anatomic Barrier in the Canine Atrium: Observations During Entrainment and Termination, 406

Reflex circulatory control
Importance of Aortic Baroreflex in Regulation of Sympathetic Responses During Hypotension: Evidence From Direct Sympathetic Nerve Recordings in Humans, 83

Refractoriness
Rate-Related Electrophysiologic Effects of Long-term Administration of Amiodarone on Canine Ventricular Myocardium In Vivo, 948

Regional contractility
Effects of Verapamil and Propranolol on Changes in Extracellular K^+, pH, and Local Activation During Graded Coronary Flow in the Pig, 939

Regional denervation
Scintigraphic Assessment of Regional Cardiac Adrenergic Innervation, 634

Registry studies
Coronary Bypass Surgery in Chronic Stable Angina, I-46

Regression of muscle mass
Left Ventricular Myocardial Structure in Aortic Valve Disease Before, Intermediate, and Late After Aortic Valve Replacement, 744

Relief of angina
Myocardial Revascularization for Unstable Angina Pectoris, I-60

Reocclusion
Monitoring of Fibrin Generation During Thrombolytic Therapy of Acute Myocardial Infarction With Recombinant Tissue-Type Plasminogen Activator, 980

Reperfusion
A Randomized Controlled Trial of Intravenous Tissue Plasminogen Activator and Early Intravenous Heparin in Acute Myocardial Infarction, 281
Limitation of Myocardial Reperfusion Injury by Intravenous Perfluorochemicals: Role of Neutrophil Activation, 645
Reperfusion Alters the Relation Between Blood Flow and the Remaining Myocardial Infarction, 884

Repolarization
Rate-Related Electrophysiologic Effects of Long-term Administration of Amiodarone on Canine Ventricular Myocardium In Vivo, 948

Reproducibility error
Sources of Variability in Normal Body Surface Potential Maps, 1077

Resection
Surgical Therapy for Left Ventricular Aneurysms: A Ten-Year Experience, I-102
Ventricular Aneurysm Resection: Trends in Surgical Risk, I-97

Restrictive cardiomyopathy
Differentiation of Constrictive Pericarditis and Restrictive Cardiomyopathy by Doppler Echocardiography, 357

Revascularization with valve procedure
Treatment of Recurrent Ventricular Tachycardia and Operation for Combined Ischemia and Valvular Disease, I-191

Right ventricular hypertrophy
Hypertrophic Cardiomyopathy in the Elderly: Distinctions From the Young Based on Cardiac Shape, 580

Risk assessment
A Method of Uniform Stratification of Risk for Evaluating the Results of Surgery in Acquired Adult Heart Disease, I-3

Risk factors
Myocardial Revascularization for Unstable Angina Pectoris, I-60
Risk Factors for Mortality After Primary Combined Valvular and Coronary Artery Surgery, I-185
Summary of a Consensus Concerning Death and Ischemic Events After Coronary Artery Bypass Grafting, I-81

Ruptured ventricle
A Critique of Emergency and Urgent Operations for Complications of Coronary Artery Disease, I-160

Saphenous vein
Alternative Conduits for Aortocoronary Bypass Grafting, I-34
Coronary Artery Bypass Grafting With Saphenous Vein, I-24

Scintigraphy
Scintigraphic Assessment of Regional Cardiac Adrenergic Innervation, 634

Serotonin
Local Platelet Activation Causes Vasoconstriction of Large Epicardial Canine Coronary Arteries In Vivo: Thromboxane A_2 and Serotonin Are Possible Mediators, 154
Simultaneous Administration of Thromboxane A_2– and Serotonin S_2–Receptor Antagonists Markedly Enhances Throm-

bolysis and Prevents or Delays Reocclusion After Tissue-Type Plasminogen Activator in a Canine Model of Coronary Thrombosis, 911
Transcardiac Serotonin Concentration Is Increased in Selected Patients With Limiting Angina and Complex Coronary Lesion Morphology, 116

Serum cholesterol trends
Trends for Coronary Heart Disease and Stroke and Their Risk Factors in Japan, 503

Sex factors
Sudden Coronary Death in the United States: 1980–1985, 756

Silent myocardial ischemia
Asymptomatic Left Main Coronary Artery Disease in the Coronary Artery Surgery Study (CASS) Registry, 1171
Suppression of Silent Ischemia by Metoprolol Without Alteration of Morning Increase of Platelet Aggregability in Patients With Stable Coronary Artery Disease, 557

Single-chain urokinase-type plasminogen activator
Synergistic Combinations of Recombinant Human Tissue-Type Plasminogen Activator and Human Single-Chain Urokinase-Type Plasminogen Activator: Effect on Thrombolysis and Reocclusion in a Canine Coronary Artery Thrombosis Model With High-Grade Stenosis, 393

Smoking
In Vivo Measurement of Thromboxane B_2 and 6-Keto-Prostaglandin $F_{1\alpha}$ in Humans in Response to a Standardized Vascular Injury and the Influence of Aspirin, 29

Sodium channel blockade
Stereoselective Disposition and Pharmacologic Activity of Propafenone Enantiomers, 1068

Sodium nitroprusside
Cardiac and Vascular Effects of Atrial Natriuretic Factor and Sodium Nitroprusside in Healthy Men, 383

Soluble guanylate cyclase
Nitrate Tolerance in Epicardial Arteries or in the Venous System Is Not Reversed by *N*-Acetylcysteine In Vivo, but Tolerance-Independent Interactions Exist, 188

Somatic pressor reflex
Evidence for Cholinergically Mediated Vasodilation at the Beginning of Isometric Exercise in Humans, 815

Spasm
Endothelium-Dependent Arterial Vasoconstriction After Balloon Angioplasty, 899

ST segment
Heart Rate Adjustment of ST Segment Depression for Improved Detection of Coronary Artery Disease, 245
ST Segment Shifts Are Poor Predictors of Subsequent Q Wave Evolution in Acute Myocardial Infarction: A Natural History Study of Early Non–Q Wave Infarction, 537

Statistical data
Coronary Heart Disease and Related Procedures: National Hospital Discharge Survey Data, I-13

Stress-time index
Stress-Shortening Relations and Myocardial Blood Flow in Compensated and Failing Canine Hearts With Pressure-Overload Hypertrophy, 872

Subendocardial resection
Patient Selection Criteria and Results of Surgery for Refractory Ischemic Ventricular Tachycardia, I-163
Risk Stratification and Management of Patients With Recurrent Ventricular Tachycardia and Other Malignant Ventricular Arrhythmias, I-178

Supine bicycle exercise
Abnormal Coronary Vasomotion During Exercise in Patients With Normal Coronary Arteries and Reduced Coronary Flow Reserve, 516

Supraventricular tachycardia
Epinephrine-Induced Reversal of Verapamil's Electrophysiologic and Therapeutic Effects in Patients With Paroxysmal Supraventricular Tachycardia, 783

Survival
Myocardial Revascularization for Unstable Angina Pectoris, I-60

Sympathetic nervous system
Scintigraphic Assessment of Regional Cardiac Adrenergic Innervation, 634
Sympathetic Vasoconstriction During Exercise in Ambulatory Patients With Left Ventricular Failure, 1021

Synergism
Effects of Aspirin and Prostaglandin E_1 on In Vitro Thrombolysis With Urokinase: Evidence for a Possible Role of Inhibiting Platelet Activity in Thrombolysis, 1309

Tachyarrhythmia
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137

Technetium 99m
Quantitative Rotational Tomography With ^{201}Tl and ^{99m}Tc 2-Methoxy-Isobutyl-Isonitrile: A Direct Comparison in Normal Individuals and Patients With Coronary Artery Disease, 1282

Terbutaline
Role of β_1-Receptors and Vagal Tone in Cardiac Inotropic and Chronotropic Responses to a β_2-Agonist in Humans, 107

Thallium
Scintigraphic Assessment of Regional Cardiac Adrenergic Innervation, 634

Thallium 201
Quantitative Rotational Tomography With ^{201}Tl and ^{99m}Tc 2-Methoxy-Isobutyl-Isonitrile: A Direct Comparison in Normal Individuals and Patients With Coronary Artery Disease, 1282

Therapeutic catheterization
Follow-up of Patients Undergoing Percutaneous Mitral Balloon Valvotomy: Analysis of Factors Determining Restenosis, 573

Thrombin
Effects of Thrombin Inhibition on the Development of Acute Platelet-Thrombus Deposition During Angioplasty in Pigs: Heparin Versus Recombinant Hirudin, a Specific Thrombin Inhibitor, 657

Thrombolysis
A Randomized Controlled Trial of Intravenous Tissue Plasminogen Activator and Early Intravenous Heparin in Acute Myocardial Infarction, 281
Clot-Selective Coronary Thrombolysis With Pro-urokinase, 776
Dependence of Fibrinolytic Activity on the Concentration of Free Rather Than Total Tissue-Type Plasminogen Activator in Plasma After Pharmacologic Administration, 1204
Effects of Aspirin and Prostaglandin E_1 on In Vitro Thrombolysis With Urokinase: Evidence for a Possible Role of Inhibiting Platelet Activity in Thrombolysis, 1309
Simultaneous Administration of Thromboxane A_2– and Serotonin S_2–Receptor Antagonists Markedly Enhances Thrombolysis and Prevents or Delays Reocclusion After Tissue-Type Plasminogen Activator in a Canine Model of Coronary Thrombosis, 911
Synergistic Combinations of Recombinant Human Tissue-Type Plasminogen Activator and Human Single-Chain Urokinase-Type Plasminogen Activator: Effect on Thrombolysis and Reocclusion in a Canine Coronary Artery Thrombosis Model With High-Grade Stenosis, 393
Time Course of Thrombolysis Induced by Intravenous Bolus or Infusion of Tissue Plasminogen Activator in a Rabbit Jugular Vein Thrombosis Model, 125

Thrombolytic therapy
Monitoring of Fibrin Generation During Thrombolytic Therapy of Acute Myocardial Infarction With Recombinant Tissue-Type Plasminogen Activator, 980

Thrombosis
Differential Sensitivity of Erythrocyte-Rich and Platelet-Rich Arterial Thrombi to Lysis With Recombinant Tissue-Type Plasminogen Activator: A Possible Explanation for Resistance to Coronary Thrombolysis, 920
Effects of Thrombin Inhibition on the Development of Acute Platelet-Thrombus Deposition During Angioplasty in Pigs:

Heparin Versus Recombinant Hirudin, a Specific Thrombin Inhibitor, 657
Prevalence of Hyperhomocyst(e)inemia in Patients With Peripheral Arterial Occlusive Disease, 1180

Thromboxanes
Effect of Early and Advanced Atherosclerosis on Vascular Responses to Serotonin, Thromboxane A_2, and ADP, 698
In Vivo Measurement of Thromboxane B_2 and 6-Keto-Prostaglandin $F_{1\alpha}$ in Humans in Response to a Standardized Vascular Injury and the Influence of Aspirin, 29
Local Platelet Activation Causes Vasoconstriction of Large Epicardial Canine Coronary Arteries In Vivo: Thromboxane A_2 and Serotonin Are Possible Mediators, 154
Simultaneous Administration of Thromboxane A_2– and Serotonin S_2–Receptor Antagonists Markedly Enhances Thrombolysis and Prevents or Delays Reocclusion After Tissue-Type Plasminogen Activator in a Canine Model of Coronary Thrombosis, 911

Tissue plasminogen activator
A Randomized Controlled Trial of Intravenous Tissue Plasminogen Activator and Early Intravenous Heparin in Acute Myocardial Infarction, 281
Dependence of Fibrinolytic Activity on the Concentration of Free Rather Than Total Tissue-Type Plasminogen Activator in Plasma After Pharmacologic Administration, 1204
Increased Immunoreactivity of Plasma After Fibrinolytic Activation in an Anti-DD ELISA System: Role of Soluble Crosslinked Fibrin Polymers, 666
Time Course of Thrombolysis Induced by Intravenous Bolus or Infusion of Tissue Plasminogen Activator in a Rabbit Jugular Vein Thrombosis Model, 125

Tissue-type plasminogen activator clearance
Dependence of Fibrinolytic Activity on the Concentration of Free Rather Than Total Tissue-Type Plasminogen Activator in Plasma After Pharmacologic Administration, 1204

Tomography
Quantitative Rotational Tomography With ^{201}Tl and ^{99m}Tc 2-Methoxy-Isobutyl-Isonitrile: A Direct Comparison in Normal Individuals and Patients With Coronary Artery Disease, 1282

Torsade de pointes
Quinidine-Induced Action Potential Prolongation, Early Afterdepolarizations, and Triggered Activity in Canine Purkinje Fibers: Effects of Stimulation Rate, Potassium, and Magnesium, 674

Toxicity
Amplification of Flecainide-Induced Ventricular Conduction Slowing by Exercise: A Potentially Significant Clinical Consequence of Use-Dependent Sodium Channel Blockade, 1000

Training
Exercise Training in Patients With Chronic Heart Failure Delays Ventilatory Anaerobic Threshold and Improves Submaximal Exercise Performance, 324

Transcoronary ablation of tachycardias
Transcoronary Chemical Ablation of Ventricular Tachycardia, 475

Transmitral flow
Mitral Prosthesis Malfunction: Comparative Doppler Echocardiographic Studies of Mitral Prostheses Before and After Replacement, 330

Transmural anterior infarction
The Risk of Coronary Bypass Surgery for Patients With Postinfarction Angina, I-79

Transmural myocardial blood flow distribution
Visualization of Subendocardial Myocardial Ischemia With Myocardial Contrast Echocardiography in Humans, 233

Tricuspid insufficiency
Noninvasive Evaluation of Pulmonary Artery Pressure During Exercise by Saline-Enhanced Doppler Echocardiography in Chronic Pulmonary Disease, 863

Turbulence
A New Method for Noninvasive Quantification of Valvular Regurgitation Based on Conservation of Momentum: In Vitro Validation, 1343

Ultrasound
Diagnosis of Deep Venous Thrombosis: A Prospective Study Comparing Duplex Scanning to Contrast Venography, 810
Influence of Alteration in Preload on the Pattern of Left Ventricular Diastolic Filling as Assessed by Doppler Echocardiography in Humans, 1226

Unstable angina
Coronary Heart Disease and Related Procedures: National Hospital Discharge Survey Data, I-13
Transcardiac Serotonin Concentration Is Increased in Selected Patients With Limiting Angina and Complex Coronary Lesion Morphology, 116

Urokinase
Effects of Aspirin and Prostaglandin E_1 on In Vitro Thrombolysis With Urokinase: Evidence for a Possible Role of Inhibiting Platelet Activity in Thrombolysis, 1309

Vagal blockade
Role of β_1-Receptors and Vagal Tone in Cardiac Inotropic and Chronotropic Responses to a β_2-Agonist in Humans, 107

Vagus
A New Mechanism for Atrioventricular Nodal Gap–Vagal Modulation of Conduction, 417

Valvular surgery
Risk Factors for Mortality After Primary Combined Valvular and Coronary Artery Surgery, I-185

Valvuloplasty
Percutaneous Balloon Valvuloplasty in Patients With Severe Aortic Stenosis and Low Ejection Fraction: Immediate Results and 1-Year Follow-up, 1189

Variant angina
Effect of Magnesium on Anginal Attack Induced by Hyperventilation in Patients With Variant Angina, 597

Vascular smooth muscle
Differences in α-Adrenergic Responsiveness Between Human Internal Mammary Arteries and Saphenous Veins, 1264

Vasoconstriction
Differences in α-Adrenergic Responsiveness Between Human Internal Mammary Arteries and Saphenous Veins, 1264
Evidence of Endothelial Dysfunction in Angiographically Normal Coronary Arteries of Patients With Coronary Artery Disease, 287
Flow-Mediated and Reflex Changes in Large Peripheral Artery Tone in Humans, 93
Sympathetic Vasoconstriction During Exercise in Ambulatory Patients With Left Ventricular Failure, 1021

Vasodilation
Evidence of Endothelial Dysfunction in Angiographically Normal Coronary Arteries of Patients With Coronary Artery Disease, 287

Vasopressin
Vasopressin and the Mature Coronary Collateral Circulation, 1324

Venodilation
Cardiac and Vascular Effects of Atrial Natriuretic Factor and Sodium Nitroprusside in Healthy Men, 383

Venous return
Cardiac and Vascular Effects of Atrial Natriuretic Factor and Sodium Nitroprusside in Healthy Men, 383

Venous thrombosis
Diagnosis of Deep Venous Thrombosis: A Prospective Study Comparing Duplex Scanning to Contrast Venography, 810
Time Course of Thrombolysis Induced by Intravenous Bolus or Infusion of Tissue Plasminogen Activator in a Rabbit Jugular Vein Thrombosis Model, 125

Ventricular activation time
Improved Diagnostic Performance on the Severity of Left Ventricular Hypertrophy With Body Surface Mapping, 312

Ventricular aneurysm
Surgery for Left Ventricular Aneurysm: Early Survival With and Without Endocardial Resection, I-108
Surgical Therapy for Left Ventricular Aneurysms: A Ten-Year Experience, I-102

Ventricular arrhythmias
Amplification of Flecainide-Induced Ventricular Conduction Slowing by Exercise: A Potentially Significant Clinical Consequence of Use-Dependent Sodium Channel Blockade, 1000
Relation of Baseline Characteristics to Suppression of Ventricular Arrhythmias During Placebo and Active Antiarrhythmic Therapy in Patients After Myocardial Infarction, 610

Ventricular assist devices
Emergency Management of Cardiogenic Shock, I-149

Ventricular conduction
Predicting Ventricular Tachycardia Cycle Length After Procainamide by Assessing Cycle Length–Dependent Changes in Paced QRS Duration, 39

Ventricular elastance
Preload-Induced Curvilinearity of Left Ventricular End-Systolic Pressure-Volume Relations: Effects on Derived Indexes in Closed-Chest Dogs, 431

Ventricular fibrillation
Evaluation of Antiarrhythmic Drugs on Defibrillation Energy Requirements in Dogs: Sodium Channel Block and Action Potential Prolongation, 1106

Ventricular function
Coronary Bypass Surgery in Chronic Stable Angina, I-46
Functional Abnormalities in Isolated Left Bundle Branch Block: The Effect of Interventricular Asynchrony, 845
Influence of Contractile State on Curvilinearity of In Situ End-Systolic Pressure-Volume Relations, 167
Preload-Induced Curvilinearity of Left Ventricular End-Systolic Pressure-Volume Relations: Effects on Derived Indexes in Closed-Chest Dogs, 431
Stress-Shortening Relations and Myocardial Blood Flow in Compensated and Failing Canine Hearts With Pressure-Overload Hypertrophy, 872

Ventricular septal defect
Acute Ischemic Ventricular Septal Defect, I-112
Emergency Cardiac Procedures in Patients in Cardiogenic Shock Due to Complications of Coronary Artery Disease, I-137

Ventricular septal defect, postinfarction
Acute Ischemic Ventricular Septal Defect, I-112

Ventricular tachycardia
Amiloride: Antiarrhythmic and Electrophysiologic Actions in Patients With Inducible Sustained Ventricular Tachycardia, 1257
Nonischemic Ventricular Tachycardia: Clinical Course and Long-term Follow-up in Patients Without Clinically Overt Heart Disease, 990
Patient Selection Criteria and Results of Surgery for Refractory Ischemic Ventricular Tachycardia, I-163
Predicting Ventricular Tachycardia Cycle Length After Procainamide by Assessing Cycle Length–Dependent Changes in Paced QRS Duration, 39
Quinidine-Induced Action Potential Prolongation, Early Afterdepolarizations, and Triggered Activity in Canine Purkinje Fibers: Effects of Stimulation Rate, Potassium, and Magnesium, 674
Risk Stratification and Management of Patients With Recurrent Ventricular Tachycardia and Other Malignant Ventricular Arrhythmias, I-178
Surgery for Left Ventricular Aneurysm: Early Survival With and Without Endocardial Resection, I-108
Sustained Bundle Branch Reentry as a Mechanism of Clinical Tachycardia, 256
Transcoronary Chemical Ablation of Ventricular Tachycardia, 475
Treatment of Recurrent Ventricular Tachycardia and Operation for Combined Ischemia and Valvular Disease, I-191

Ventricular thrombus
Myocardial Inotropic Responses to Aggregating Platelets and Modulation by the Endocardium, 1315

Ventricular wall motion
Ischemic Mitral Regurgitation, I-116

Ventricular wall score
Coronary Artery Bypass Grafting for Postinfarction Angina Pectoris, I-68

Ventricular wall stress
Assessment of Ventricular Contractile State and Function in Patients With Univentricular Heart, 1247

Verapamil
Epinephrine-Induced Reversal of Verapamil's Electrophysiologic and Therapeutic Effects in Patients With Paroxysmal Supraventricular Tachycardia, 783
Verapamil Prevents Silent Myocardial Perfusion Abnormalities During Exercise in Asymptomatic Patients With Hypertrophic Cardiomyopathy, 1052

Volume expansion
Atrial Natriuretic Peptide in a Rat Model of Cardiac Failure: Atrial and Ventricular mRNA, Atrial Content, Plasma Levels, and Effect of Volume Loading, 620

Wolff-Parkinson-White syndrome
Long-term Results of Catheter Ablation of a Posteroseptal Accessory Atrioventricular Connection in 48 Patients, 1160
